Celebrate the returning of the light with a hike the day after Daylight Savings Time begins. The sun won't set until almost 7pm so let's get outside for this nice after work hike! This hike on old logging roads goes uphill to beautiful overlooks, through two large fields and dense pine woods to a clearing that affords views of Croydon Mountain, Mount Ascutney, and Blueberry Hill. If conditions are appropriate we will end with a small campfire. (2 miles, easy)

*April 22:*
